

How to Carve a Baskin-Robbins Ice Cream Turkey Cake

This Thanksgiving, there's no better complement to your holiday feast than our popular ice cream Turkey Cake. This eye-catching cake was designed to help holiday hosts reinvent their dessert tables and wow guests at any holiday gathering. Baskin-Robbins' Turkey Cake is a delicious ice cream cake made with your favorite Baskin-Robbins flavor, two sugar cone "legs" and a caramel praline topping glaze.

Given the ice cream cake's unique design, Sara Cox, Research & Development Manager and Cake Designer here at Baskin-Robbins, wanted to share some helpful tips on how to carve this cake for your friends and family this holiday season.

Our ice cream cakes are created and decorated in local Baskin-Robbins shops, so you can work directly with your local store's cake decorator on any custom design requests. You can also check out our other seasonal and fun ice cream cake designs on [BaskinRobbins.com](https://www.baskinrobbins.com), including the Harvest Swirl Cake or the Create Your Own PhotoCake, which allows you to design a one-of-a-kind dessert with any special photo you choose.

The Baskin-Robbins Turkey Cake is available for pre-order both in-store or online at order.baskinrobbins.com. No matter which way you cut this cake, it is sure to be gobbled up by your guests in no-time!
